Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Post Office Department

Effective upon publication in the **FEDERAL REGISTER**, paragraphs (a) (5) and (c) (5) of § 6.309 are revoked, the headnotes of paragraphs (e) and (f) are amended to read "Office of the General Counsel" and "Bureau of Operations", respectively, and subparagraphs (1), (2) and (3) of paragraph (g) are amended as set out below.

§ 6.309 Post Office Department.

(g) *Bureau of Finance.* (1) One Confidential Assistant to the Assistant Postmaster General.

(2) One Special Representative to the Assistant Postmaster General.

(3) One Private Secretary to the Assistant Postmaster General.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] MARY V. WENZEL,
Executive Assistant.

PART 34—APPOINTMENT, COMPENSATION, AND REMOVAL OF HEARING EXAMINERS

Status of Examiners Reached in Reductions in Force

Paragraph (c) of § 34.15 is amended as set out below.

§ 34.15 Reductions in force.

(c) *Status of hearing examiners who are reached in reductions in force.* (1) The name of a hearing examiner who has been separated, furloughed, or demoted from a hearing examiner position because of a reduction in force will, upon his request:

(i) Be placed on the Civil Service Commission's priority referral list for the grade in which he last served and for all lower grades; and

(ii) Be placed ahead of all other eligibles on the open competitive hearing examiner register for the grade in which he was reduced in force as a hearing examiner and all lower grades. Where more than one hearing examiner is affected, the qualifications of the several hearing examiners shall be rated by the Commission and relative standing at the top of the register will be on the basis of these ratings.

(2) Requests under subparagraph (1) of this paragraph may be filed at any time after the receipt of the reduction in force notice but not later than 90 days after the date of separation or furlough and must be accompanied by a Standard Form 57 and a copy of the reduction in force notice.

(3) When there is no hearing examiner on the agency's reemployment priority list (§ 20.7 (a) and (c) of this chapter) but there is a hearing examiner who has been placed on the priority referral list (subparagraph (1) (i) of this paragraph) or on the top of the open competitive register for priority certification (subparagraph (1) (ii) of this paragraph), the agency may fill the vacant hearing examiner position only by selection from the priority referral list or the register, unless it obtains the prior approval of the Commission under § 34.3 (c), § 34.4, § 34.5, § 34.6, or § 34.7.

(4) Referral, certification and selection of hearing examiners reached in reductions in force from the agency's reemployment priority list, the Civil Service Commission's priority referral list, or the open competitive register shall be made without regard to selective certification procedures applied in original appointment.

(Sec. 11, 60 Stat. 244; 5 U.S.C. 1010)

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 402; Amdt. 161]

PART 507—AIRWORTHINESS DIRECTIVES

Pratt and Whitney JT3C-6 Turbojet Engines

A recent failure of a JT3C-6 turbojet engine combustion chamber case rear flange resulted in complete loss of engine power. The failure also caused portions of the nacelle cowling to be separated from the aircraft. In order to prevent a recurrence of this type of failure, an immediate inspection is being required.

In the interest of safety the Administrator finds that notice and public procedure hereon are impracticable and that good cause exists for making this amendment effective upon publication in the **FEDERAL REGISTER**.

In consideration of the foregoing § 507.10(a), (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

PRATT & WHITNEY. Applies to all JT3C-6 turbojet engines.

Compliance required as indicated.

Prior to dispatch from a terminal where inspection facilities are available, unless already accomplished, and every 25 hours' time in service thereafter, inspect the entire circumference on the rear face of rear flange of the combustion chamber outer case assembly P/N 255639, outboard of the attaching nuts which secure combustion chamber outer case to the turbine case. Inspection should be performed using approximately a 6-power glass with a 2- to 3-inch field. Any crack detected requires replacement of the case.

At hot section inspection and at overhaul, in addition to the visual inspection given above,

(a) Inspect fillet between snap diameter and front face of rear flange using approximately 6-power glass. Any crack requires replacement of the case.

(b) Check hardness of combustion chamber outer case rear flange at three locations approximately 120 degrees apart between the bolt holes of the flange. If hardness is more than Rockwell C40, the case must be replaced.

(Pratt and Whitney aircraft telegraphic message dated May 10, 1960, covers the same subject.)

This amendment shall become effective on the date of its publication in the **FEDERAL REGISTER**.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on May 19, 1960.

JAMES T. PYLE,
Acting Administrator.

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Reg. Docket No. 391; Amdt. 167]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Alterations

The new and revised standard instrument approach procedures appearing hereinafter are adopted to become effective and/or canceled when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures. Pursuant to authority delegated to me by the Administrator (24 F.R. 5662), I find that a situation exists requiring immediate action in the interest of safety, that notice and public procedure hereon are impracticable, and that good cause exists for making this amendment effective on less than thirty days' notice.

Part 609 (14 CFR Part 609) is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

5. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 198]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 922.498 Valencia Orange Regulation 198.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this

section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 19, 1960.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., May 22, 1960, and ending at 12:01 a.m., P.s.t., May 29, 1960, are hereby fixed as follows:

- (i) District 1: 300,000 cartons;
- (ii) District 2: 500,000 cartons;
- (iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.954 Lemon Regulation 847.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 23 F.R. 9053), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication

hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER T—OPERATION AND MAINTENANCE

PART 221—OPERATION AND MAINTENANCE CHARGES

Basic Water Charges

On page 7163 of the FEDERAL REGISTER of September 4, 1959, there was published

a notice of intention to amend § 221.77 of Title 25, Code of Federal Regulations. The purpose of the amendment is to provide for an increase in the annual operation and maintenance assessment rate from \$2.10 to \$3.00 per acre on the Uintah Indian Irrigation Project, Utah.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. Two objections were received to the proposed increase in the assessment rate. The objections have been thoroughly considered, and as a result of such consideration and a survey of conditions in the field, it has been determined that the present assessment rate of \$2.10 per acre is wholly inadequate and that the project cannot properly be maintained without the increase in assessment rates to \$3.00 per acre.

Due to the delay in determining the appropriate assessment rate of \$3.00 per acre and in order to prevent further deterioration of the irrigation works which could result in a great loss to the water users and a possible breakdown of the project, the proposed amendment is hereby adopted without change and will become effective at the beginning of the calendar day on which it is published in the FEDERAL REGISTER.

Section 221.77 is amended to read as follows:

§ 221.77 Basic water charges.

Pursuant to the provisions of the acts of June 21, 1906 (34 Stat. 375) and March 7, 1928 (45 Stat. 210, 25 U.S.C. 387), the reimbursable costs expended in the operation and maintenance of the Uintah Indian Irrigation Project, Utah, are apportioned on a per-acre basis against the irrigable lands of all units of the project and for the calendar year 1960 and each succeeding year until further order, there shall be collected for each acre of irrigable land to which water can be delivered from the constructed works, a uniform basic charge of \$3.00 per acre per annum, where not otherwise established by contract. No bill shall be rendered for less than \$4.00.

ROGER ERNST,

Assistant Secretary of the Interior.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

Pamlico Sound, Bogue Sound, New River and Vicinity, North Carolina

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U.S.C. 3), regulations establishing and governing the use and navigation of

danger zones for Marine Corps firing operations in Pamlico Sound, Bogue Sound and New River and vicinity, North Carolina, are hereby amended by revising paragraphs (c) and (d) and adding paragraph (e) in § 204.55, and revising paragraph (a) in § 204.56, as follows:

§ 204.55 Pamlico Sound, Bogue Sound, and adjacent waters, N.C.; danger zones for Marine Corps operations.

(c) Target and bombing area in Atlantic Ocean in vicinity of Bear Inlet—

(1) *The area.* The waters within an area described as follows: Beginning at latitude 34°37'32", longitude 77°12'03"; thence to latitude 34°36'58", longitude 77°11'25"; thence to latitude 34°37'44"; longitude 77°10'35"; thence to latitude 34°32'27", longitude 77°06'30"; and thence to latitude 34°30'50"; longitude 77°10'20"; and thence to latitude 34°36'00", longitude 77°14'00"; and thence to the point of beginning.

NOTE: All bearings are referred to true meridian.

(2) *The regulations.* Vessels may proceed along established waterways except during military training periods. Warning of military training periods will be given through Notices to Mariners and by displaying one hour prior to commencement a red danger streamer during daylight hours, or a red light at night, from a flag pole forty feet in height located at the U.S. Coast Guard Life Boat Station, Bogue Inlet, Swansboro, North Carolina, and from observation tower forty feet in height located at the northern end of Onslow (Hurst) Beach. Prior to bombing and firing operations, the area will be searched by plane. Watercraft in the area will be warned by aircraft "buzzing" of the impending target practice. Upon being so warned, vessels shall leave the area as quickly as possible by the most direct route.

(d) *Inland waters in the Browns Inlet area between Bear Creek and Onslow Beach Bridge over the Atlantic Intracoastal Waterway—*(1) *The area.* Navigable waters between Bear Creek and Onslow Beach Bridge to include all inlets, streams, bays, and water therein contained, bounded on the north by Bear Creek, on the east and south by the Atlantic Ocean, to the meridian 77°16'20"; thence by this meridian to latitude 34°34'31"; and thence by a line bearing 44° from this point until the line intersects Bear Creek.

NOTE: All bearings are referred to true meridian.

(2) *The regulations.* (i) Vessels may proceed through the Atlantic Intracoastal Waterway in the area without stopping except in cases of extreme emergencies.

(ii) All navigable waters in the area between the south bank of Bear Creek and the north bank of the north connecting channel between the Atlantic Intracoastal Waterway and Browns Inlet shall be closed to navigation at all times. There are highly sensitive unexploded projectiles within the limits of this area.

(iii) Vessels may proceed through the north connecting channel and the south

connecting channel (Banks Channel) in the area between the Atlantic Intracoastal Waterway and Browns Inlet to the Atlantic Ocean without stopping during periods of nonmilitary use. Caution should be used when proceeding through these waters due to the presence of unexploded projectiles lying in this area.

(iv) Navigable waters in the area between the south connecting channel (Banks Channel) leading to Browns Inlet and Onslow Beach Bridge on both sides of the Atlantic Intracoastal Waterway are open to unrestricted navigation during periods of nonmilitary use. An unknown element of risk exists in this area due to the possible presence of unexploded projectiles.

(v) Warning of impending military use of the area will be contained in weekly Notice to Mariners and small craft will be stationed on either side of the area to warn persons not aware of the notice of the danger.

(vi) Vessels having specific authority from the Commanding General, Marine Corps Base, Camp Lejeune, North Carolina, may enter the area.

(e) *Enforcing agency.* The regulations in this section shall be enforced by the Commanding General, Marine Corps Base, Camp Lejeune, North Carolina, or his authorized representatives.

§ 204.56 New River, N.C., and vicinity; Marine Corps firing ranges.

(a) *Atlantic Ocean east of New River Inlet.* The waters of the Atlantic Ocean within a sector bounded on the north by a line bearing 105° from latitude 34°37'25", longitude 77°10'35"; on the east and south by the arc of a circle having a radius of 25,000 yards centered at latitude 34°34'15", longitude 77°16'10"; on the west by a line bearing 205° from latitude 34°32'37", longitude 77°18'34"; and on the northwest by the shore.

NOTE: All bearings in this section are referred to true meridian.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

EXTENSION OF EFFECTIVE DATE FOR CERTAIN SPECIFIED FOOD ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Pub. Law 85-929; 72 Stat. 1788; 21 U.S.C. note under sec. 342) and delegated to him by the Secretary of Health, Education, and Welfare (23 F.R. 9500), hereby authorizes the use in foods of certain additives for which tolerances have not yet been established or petitions therefor denied. Therefore, the food additive regulations (25 F.R. 2837, 3525) are amended in the following respects:

1. Section 121.86 is amended by adding thereto the following items:

§ 121.86 Extension of effective date of statute for certain specified food additives as direct additives to food.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances, or for granting exemptions from tolerances, the

following additives may be used in food, under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued

establishing or denying tolerances or exemptions from the requirement of tolerances, in accordance with section 409 of the act; whichever occurs first:

Product	Limits	Specified uses or restrictions
3,5-Dihydroxybenzoic acid.....	300 parts per million in feed-grade salt for animal use.
Mannitol.....	If an amount of the food that may reasonably be consumed as an average serving contains 2.5 grams or more of mannitol, the label shall bear a statement of the number of grams of mannitol in an average serving of the food. The average serving shall be expressed in terms of a convenient unit or units of such food or a convenient unit of measure that can be readily understood and utilized by purchasers of such food. The label shall also bear a statement that the consumption of more than 7.5 grams of mannitol at one time or more than 20 grams of mannitol per day may have laxative effects.
Methyl formate.....	In raisins and currants as a residue from use as a fumigant, applied at a rate of 0.77 milliliter per pound of fruit.
Sorbitol.....	If an amount of the food that may reasonably be consumed as an average serving contains 5 grams or more of sorbitol, the label shall bear a statement of the number of grams of sorbitol in an average serving of the food. The average serving shall be expressed in terms of a convenient unit or units of such food or a convenient unit of measure that can be readily understood and utilized by purchasers of such food. The label shall also bear a statement that the consumption of more than 15 grams of sorbitol at one time or more than 40 grams of sorbitol per day may have laxative effects.
Starch, oxidized, prepared by treating starch water suspension with sodium hypochlorite and hydrogen peroxide.	As an ingredient and stabilizer in prepared foods.

2. Section 121.87 (25 F.R. 1727, 1772, 2203, 2395, 3526) is amended as follows:

a. The introduction to the section is amended to read:

§ 121.87 Extension of effective date of statute for certain specified food additives as indirect additives to food.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for granting exemptions from tolerances, the following additives may be used in connection with the production, packaging, and storage of food products,

under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued in accordance with section 409 of the act, whichever occurs first. The extensions are granted under the condition that a minimum quantity of the additive will be incorporated in the food, consistent with good manufacturing practice. While preliminary data show that many of the substances included in the list may not migrate to foods, these are being included pending the completion of additional scientific work involving them.

b. Section 121.87 is further amended by adding thereto the following items:

(a) *General list.*

Product	Limits	Specified uses or restrictions
Damar resin (natural East Indian resin).....	As a component of films for food packaging.
Dibutyl phthalate.....	Do.
Dimerized rosin (made from rosin (wood, gum, or tall oil rosin or blends of these), using sulfuric acid as a catalyst).....	Do.
Dimethylcyclohexyl phthalate.....	Do.
Hydrogenated castor oil phthalate.....	Do.
Itaconic acid, polymerized.....	Do.
Maleic anhydride rosin ester.....	Do.
Nylon resin (polyhexamethyleneadipamide).....	In food-handling equipment other than for milk.
Nylon resin (polyhexamethylenesecbacamide).....	Do.
Nylon resin (copolymer of hexamethylenecaprolactam and hexamethylenesecbacamide).....	Do.
Palmityl stearate.....	As a lubricant in polystyrene for food packaging.
Polysorbate 80 (polyoxyethylene (20) sorbitan monooleate).....	Not to exceed 1.48 percent in film wraps for fruits and vegetables.
Sodium dodecylbenzene sulfonate.....	As a component of films for food packaging.
Sodium lauryl sulfate.....	As a component of food-packaging material.
Sperm oil, hydrogenated.....	As a lubricant in polystyrene for food packaging.
Toluene-sulfonamide formaldehyde resin.....	As a component of films for food packaging.
Triethylene glycol.....	Do.

3. Part 121 is amended by adding to Subpart A the following new section:

§ 121.88 Extension of effective date of statute for uses of certain sources of radiation in food processing.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for the granting of exemptions from toler-

ances, the following sources of radiation may be used in connection with the inspection and packaging of foods and control of food processes, under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued in accordance with section 409 of the act, whichever occurs first. The extensions are granted under the condition that the exposure of foods to radiation of the specified energies causes neither radioactivity nor any deleterious changes in foods.

Product	Limits	Specified uses or restrictions
Sealed sources of radiation from radioactive isotopes (strontium 90, cesium 137).	-----	At energy levels not exceeding 2.2 million electron volts for inspection of foods, food packages, and control of food processes.
X-radiation.....	-----	Energy level of 300-kilovolt peak for inspection of foods, food packages, and control of food processes.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendment to the Federal Food, Drug, and Cosmetic Act were contemplated by the statute as a relief of restrictions on the food-processing industry.

Effective date. This order shall become effective on the date of signature.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 201]

FEDERAL SEED ACT REGULATIONS

Notice of Proposed Rule Making and Public Hearing

Pursuant to the provisions of section 402 of the Federal Seed Act approved August 9, 1939, as amended (7 U.S.C. 1592) and section 4 of the Administrative Procedure Act (5 U.S.C. 1003), notice is hereby given of intention to promulgate the following amendments to the regulations (7 CFR Part 201, as amended) under the Federal Seed Act. Public hearing with reference thereto will be held in Room 302 Federal Office Building, 911 Walnut Street, Kansas City, Missouri, at 10 a.m., June 16 and 17, 1960.

Interested persons are invited to attend this hearing and to offer comments or suggestions with reference to the proposals. Any comments or suggestions bearing on the proposals which cannot be made or presented in person at the hearing may be transmitted by mail addressed to the Seed Branch, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., and will be considered if received on or before the 18th day of July 1960.

Mrs. S. F. Rollin, Acting Chief, Seed Branch, Grain Division, Agricultural Marketing Service, is hereby designated as the presiding officer who shall conduct the hearing, with power to do all things necessary and appropriate to the proper conduct of the hearing. In case this designee is unable to conduct the hearing, any other officer of the Department designated by the Director, Grain Division, Agricultural Marketing Service, is hereby authorized to conduct such hearing.

It is not intended to make the amendments changing the list of agricultural seeds in § 201.2(h) and related changes effective prior to July 1, 1961.

The proposed amendments are as follows:

§ 201.2 [Amendment]

1. Amend § 201.2(h) by deleting from the list of agricultural seeds "Ryegrass or" and changing "Ryegrass, Italian" to read "Ryegrass, Annual or Italian".

2. Amend § 201.2(i) by adding to the list of vegetable seeds in proper alphabetical order "Cress, upland—Barbarea verna (Mill.) Aschers."

3. Amend § 201.2(y), subparagraph (1), pertaining to the definition of a "hybrid" to read: "(1) two or more inbred lines;"

4. Amend § 201.2(z) by changing the reference from "section 203(b) (2) (B) of the act" to "section 203(b) (2) (C) of the act and § 201.33".

§ 201.31 [Amendment]

5. In § 201.31 amend the list of vegetable seeds and percentages of germination pertaining thereto as follows:

a. Following Cress, garden, delete "60" and insert "75";

b. Following Dandelion, delete "45" and insert "60";

c. Following Sorrel, delete "60" and insert "65";

d. Add in proper alphabetical order "Cress, upland" and in the percent column with reference thereto add "60".

§ 201.31a [Amendment]

6. Amend the last two items in the list of substances in § 201.31a(d) to read as follows:

Piperonyl butoxide—8 p.p.m. on oat and sorghum and 20 p.p.m. on all other seeds.

Pyrethrins—1 p.p.m. on oat and sorghum and 3 p.p.m. on all other seeds.

§ 201.34 [Amendment]

7. Amend § 201.34(e) as follows:

a. In subparagraphs (1), (2), (3), (4), and (6) insert in proper alphabetical order under the headings indicated the following variety names:

In subparagraph (1) *Beans (vegetable snapbeans)*:

Extender.

Gardengreen.

Longval.

Resistant Asgrow Valentine.

Resistant Cherokee.

In subparagraph (2) *Cabbage*:

Babyhead.

Market Master.

In subparagraph (3) *Onions, hybrid*:

Autumn Splendor.

Emple.

Treasure.

In subparagraph (4) *Soybeans*:

§ 201.36b [Amendment]

8. Amend § 201.36b(c) to read as follows:

(c) Terms descriptive of quality or origin and terms descriptive of the basis for representations made may be associated with the name of the kind or variety of seed, and terms taken from trademarks may be associated with the name of the kind or variety of seed as an indication of source, provided the terms are closely identified as being other than part of the name of the kind or variety; for example, Fancy quality redtop, Idaho origin alfalfa, Grower's affidavit of variety Atlas sorghum, and Ox brand Golden Cross corn.

§ 201.39 [Amendment]

9. Amend § 201.39(c) by adding at the end of the paragraph the following wording: "The hand is inserted in an open position and the fingers are held closely together while the hand is being inserted and the portion withdrawn."

10. Amend § 201.39(d) by deleting the existing wording therein and inserting the following wording:

(d) As the seed or screenings are sampled, each portion shall be examined. If there appears to be a lack of uniformity, the portions shall not be combined into a composite sample but shall be retained as separate samples or combined to form individual-container samples to determine such lack of uniformity as may exist.

§ 201.45 [Amendment]

11. Amend § 201.45(b) by adding after the second sentence the following: "To avoid damaging large seeds, a divider should be used which will prevent the seeds from falling great distances onto hard surfaces."

12. Amend § 201.46 by deleting the paragraph immediately following the section number and substituting the following:

§ 201.46 Weight of working sample.

(a) *Unmixed seed.* The working samples for purity analysis and noxious-weed seed examination of unmixed seed shall be at least the weights set forth in table 1.

(b) *Mixtures consisting of one predominant kind of seed or a group of kinds of similar size.* The weights of the purity and noxious-weed seed working samples in this category shall be determined by the kind or group of kinds which comprise more than 50 percent of the sample.

(c) *Mixtures consisting of two or more kinds or groups of kinds of different sizes, none of which comprise over 50 percent of the sample.* The weights of the purity working samples in this category shall be the weighted averages (to the nearest whole gram) of the weights listed in table 1 for each of the kinds which comprise the sample determined by the following method: (1) Multiply the percentage of each component in the mixture (rounded off to the nearest whole number) by the sample sizes specified in column 2, table 1, (2) add all these products, (3) total the percentages of all components of the mixtures, and (4) divide the sum in subparagraph (2) of this paragraph by the total in subparagraph (3) of this paragraph.

(d) The weight of the noxious-weed seed working sample shall be that found in column 3 of table 1 for a kind of seed having the same purity working sample as determined by the weighted average. If the approximate percentages of the components of a mixture are not known they may be estimated.

13. In § 201.46 amend table 1 "Weight of working sample" as follows:

a. Delete the words "Buffelgrass—*Pennisetum ciliare*" and the numerals "10" and "50" pertaining thereto, appearing in columns 2 and 3, and substitute therefor in the appropriate columns the following words and numerals:

Buffelgrass— <i>Pennisetum ciliare</i> :			
(Fascicles)-----	5	50	460
(Caryopses)-----	2	35	1,940

b. Following "Fescue: Sheep—*Festuca ovina*", add the numeral "1167" in the fourth column.

c. Following the words "Oat—*Avena* app.", delete the numeral "28" in the fourth column and insert therefor the numerals "35-50".

d. Insert in alphabetical order under "Agricultural seed" "Tobacco—*Nicotiana glauca*" and in the three columns respectively, with reference thereto, insert "½", "25", "15,625".

e. Following the words "Wheatgrass: standard crested—*Agropyron desertorum*", delete the numeral "10" in the second column and insert therefor the numeral "5".

f. Following the words "Wild-rye: Russian—*Elymus junceus*", delete the numeral "10" in the second column and insert the numeral "5".

g. Under "Vegetable seed", "Cress", insert in proper alphabetical order "Upland—*Barbarea verna*" and in the three columns respectively with reference thereto, insert "2", "35", and "-----".

14. In § 201.47 delete the existing wording of this section and substitute the following wording:

§ 201.47 Separation.

(a) The working sample shall be weighed in grams to four significant figures and shall then be separated into four parts: (1) Kind or variety to be considered pure seed, (2) other crop seed, (3) weed seed, and (4) inert matter. The components shall be weighed in grams to the same number of decimal places as the working sample. The per-

centage of each part shall be determined to two decimal places.

(b) Aids for the classification of pure seed, other crop seed, weed seed, and inert matter may include visual examination, use of transmitted light, (diaphanoscope), or specific gravity (seed blowers). Specific instructions for classification of the various components are given in §§ 201.47a to 201.51, inclusive.

(c) The components shall be weighed and percentages calculated as follows:

(1) For sample sizes less than 25 grams, all four components shall be weighed; the percentages shall be based on the sum of these weights and not on the original weight. The sum of these weights shall be compared with the original weight of the working sample as a check against the loss of material, or other errors.

(2) For sample sizes of 25 grams or more, the components—other crop seed, weed seed, and inert matter—shall be weighed separately and their percentages determined by dividing these weights by the original weight of the working sample. The pure seed need not be weighed; its percentage may be determined by subtracting the sum of the percentages of the other three components from 100.

(d) When the working sample consists of two or more similar kinds or varieties which would be difficult to separate in the entire sample, it is permissible to weigh the similar kinds or varieties together as one component and make the separation on a reduced portion of the sample. At least 400 seeds or an equivalent weight (except *agrostis* species) shall be taken indiscriminately from the pure seed component and the separation made on this portion. The proportion of each kind present shall then be determined by weight (except *agrostis* species, which shall be determined by count) and from this the percentage in the entire sample shall be calculated.

§ 201.47a [Amendment]

15. Amend § 201.47a by adding at the end of paragraph (d) within the existing parentheses the following wording: "Pods of legumes normally containing more than two seeds, when occurring incidentally in the working samples, should be hulled if the kind is usually hulled when marketed."

16. Amend § 201.48 by deleting the introductory paragraph and paragraphs (g), (i), and (j) and substituting the following wording:

§ 201.48 Kind or variety considered pure seed.

The pure seed shall include all seeds of each kind or each kind and variety under consideration present in excess of 5 percent of the whole. Pure seed may include kinds and varieties present to an extent of 5 percent or less of the whole; for example, kinds or varieties shown on a label as parts of a mixture in amounts of 5 percent or less. The following shall be included with pure seed:

(g) Multiple florets or entire spikelets of the following kinds of seeds when one

or more of the florets contain a caryopsis: Bluegrasses (*Poa*), tall meadow oatgrass (*Arrhenatherum elatius*), Rhodesgrass (*Chloris gayana*), bluestems (*Andropogon*), grammas (*Bouteloua*), barley (*Hordeum*), and oats (*Avena*); also spikes of side-oats grama (*Bouteloua curtipendula*) containing at least one caryopsis. Attached empty florets of the following kinds need not be removed from fertile florets when the analysis is made by the special method described under § 201.51a: Orchardgrass (*Dactylis glomerata*), Chewings fescue (*Festuca rubra* var. *commutata*), red fescue (*Festuca rubra*), fairway crested wheatgrass (*Agropyron cristatum*), standard crested wheatgrass (*Agropyron desertorum*), and intermediate wheatgrass (*Agropyron intermedium*).

(1) Insect-damaged seeds, except (1) broken pieces that are one-half or less than the original size and (2) chalcid-damaged seeds of alfalfa, red clover, crimson clover, and similar kinds of small-seeded legumes;

(j) Seed units of New Zealand spinach, beets, and sugar beets, regardless of whether they contain true seeds: *Provided*, That in the case of segmented beet balls and sugar beet balls, small fragments which obviously do not contain true seeds shall be classified as inert matter.

§ 201.51 [Amendment]

17. Amend § 201.51 as follows:

a. Reword paragraph (a) (4) to read:

(4) Chalcid-damaged seeds (puffy, soft, or dry and crumbly) of alfalfa, red clover, crimson clover, and similar kinds of small-seeded legumes.

b. Add the following new subparagraph (5) to paragraph (a):

(5) Seed units of grasses in which the caryopses are spongy or corky; crumbly and white; filled with insect frass; or replaced by nematode galls or fungus bodies such as ergot and other sclerotia, and smut balls.

c. Delete the existing paragraph (b) (5) and substitute therefor the following:

(5) Bulblets of wild onion and wild garlic (*Allium*) which are completely devoid of the husk and pass through a ¼th-inch-round-hole sieve; bulblets which show evident damage to the basal end regardless of whether the husk is present or absent. (Bulblets which have any part of the husk remaining and are not damaged at the basal end are considered weed seeds regardless of size.)

d. In paragraph (b) (7) add the following sentence immediately before the semicolon which follows the existing wording: "(Questionable seeds should be sectioned to determine classification as weed seed or inert matter, based on the presence or absence of embryo.)"

e. Following paragraph (b) (9) add the following subparagraph:

(10) Single seeds of *Juncus* species. (See § 201.50.)

18. Following § 201.51 add a new section as follows:

§ 201.51a Special procedures for purity analysis.

When the multiple units of the pure seed fraction (multiple florets or entire spikelets containing at least one caryopsis, to which is attached any type of inherent inert matter) of the kinds of grasses indicated in this section constitute 5 percent or more of the sample, it is not necessary to detach and separate the fertile florets from empty florets or other attached inert structures. The test is made by the following procedure:

FACTORS APPLICABLE TO MULTIPLE UNITS

Kind of seed	Percent of single florets in sample									
	50 or less	50.01-55.00	55.01-60.00	60.01-65.00	65.01-70.00	70.01-75.00	75.01-80.00	80.01-85.00	85.01-90.00	90.01-95.00
Chewings fescue.....	0.91	0.91	0.91	0.91	0.91	0.91	0.91	0.91	0.91	0.91
Red fescue.....	.80	.81	.82	.83	.84	.86	.87	.88	.89	.90
Orchardgrass.....	.80	.81	.81	.82	.82	.82	.83	.83	.83	.84
Crested wheatgrass ¹70	.72	.73	.74	.75	.76	.77	.78	.79	.79
Intermediate wheatgrass.....	.72	.74	.75	.76	.77	.78	.79	.80	.81	.82

¹ Includes both fairway crested wheatgrass and standard crested wheatgrass.

§ 201.52 [Amendment]

19. Amend § 201.52 by adding the following sentence immediately after the last sentence of the existing wording: If the sample contains seed-bearing fruits or other seed-bearing structures of noxious weeds, such as burs of *Cenchrus*, capsules of *Cuscuta* or berries of *Solanum*, the number of individual seeds shall be determined.

20. Amend § 201.55 by deleting the entire section and substituting the following wording:

§ 201.55 Retests.

Retests shall be made as follows:

(a) When the range of 100-seed replicates of a given test exceeds the maximum tolerated range in the table appearing in this section following paragraph (e);

(b) When at the time of the prescribed final count there are indications, such as presence of firm ungerminated seeds, that a satisfactory germination has not been obtained;

(c) When there is evidence that the results may not be reliable due to improper test conditions, errors in seedling evaluation, the presence of fungi or bacteria, or inaccuracies in counting or recording results;

(d) When a sample shows seedling injury or abnormality as a result of chemical treatment, of exposure to chemicals, or of toxicity from any source. (Retest shall be made in soil or a mixture of soil and sand);

(e) When no two satisfactory tests are within tolerance.

No. 100—3

(a) Separate the multiple units and single units, weigh, and determine the percentage of each in the sample;

(b) If there is 5 percent or more of multiple units the weight of multiple units is multiplied by the appropriate fraction taken from the following tabulation. The weight obtained from this calculation shall be regarded as pure seed and the remainder of the weight of multiple units shall be regarded as inert matter. (If the multiple units constitute less than 5 percent of the sample, these special procedures do not apply and the units are separated manually into pure seed and inert matter.)

EXPLANATORY NOTE: To find the maximum tolerated range, compute the average percentage of all 100-seed replicates of a given test, rounding off the result to the nearest whole number. The germination is found in the first two columns of the table. When the differences between highest and lowest replicates do not exceed the corresponding values found in the "4-replicate" column, no additional testing is required. If the differences exceed these values, omit the lowest replicate and compute the average of the three remaining replicates. If the range between the highest and lowest three replicates do not exceed the values in the "3-replicate" column for the new average percentage germination, retesting is not required and the average of the three replicates shall be regarded as the percentage germination. However, if the differences exceed the values in the "3-replicate" column, retesting is necessary.

When only 200 seeds are tested, retest if the range of the two replicates exceeds the values in the "2-replicate" column. In order to form 100-seed replicates, combine sub-replicates of 25 or 50 seeds which were closest together in the germinator.

§ 201.56 [Amendment]

21. Amend § 201.56 by inserting in paragraph (d), immediately following the words "New Zealand spinach seed, Beta seed * * *", the words "double fruits of the carrot family (*Umbelliferae*), multiple seeds of burnet,".

§ 201.56-2 [Amendment]

22. In § 201.56-2 delete all the wording preceding paragraph (b) and substitute therefor the following wording:

(a) Lettuce: The interpretations of lettuce seedlings are made only at the end of the test period. When used to describe seedling structures "normal length" means that length attained by a vigorous sample of the same variety of lettuce as the one being tested when both are placed under the same test conditions. Necrosis of cotyledons is frequently manifested by softened, grayish, blackish, or reddish areas and should not be confused with natural pigmentation. Seedlings with extensive necrotic and/or decayed areas on the cotyledons are slower in growth and tend to be shorter than seedlings without such necrosis. It is not necessary to distinguish between necrotic areas and decay caused by fungi and bacteria since the interpretation is the same for all conditions.

(1) Normal seedlings include those that have: (i) Long, vigorous roots, preferably over half the usual length for vigorous seedlings; (ii) long, vigorous hypocotyls, preferably over half the usual length for vigorous seedlings, with no cracks or lesions extending into the central conducting tissue; (iii) two cotyledons either free of decay or with less than half the total cotyledon surface covered by necrotic or decayed areas (the hypocotyl and root should be more than half normal length); and (iv) an epicotyl entirely free of decay.

(2) Abnormal seedlings include those that have: (i) No roots, or roots clearly

less than half normal length with root tips blunt, swollen, or discolored; (ii) hypocotyls clearly less than half normal length, or severely twisted or grainy, or with cracks or lesions extending into the central conducting tissue; (iii) only one cotyledon, or cotyledons with more than half their total area necrotic or decayed (the hypocotyl and root are usually less than half normal length), or swollen cotyledons (usually grayish or darkened) with extremely short or vestigial hypocotyl and root (seed coat usually adhering to cotyledons); (iv) no epicotyl or an epicotyl with any degree of decay or necrosis.

§ 201.56-3 [Amendment]

23 In the first undesignated paragraph of § 201.56-3 and in the heading of paragraph (b) of the same section, insert the words "upland cress," after the words "garden cress", and insert a comma after "garden cress" in said heading.

§ 201.56-6 [Amendment]

24. In § 201.56-6, delete the wording in paragraph (a) (1) (i) and substitute therefor the following wording:

(i) A terminal bud or epicotyl and at least one primary leaf, with one complete cotyledon or two broken cotyledons with half or more of the original cotyledon tissue remaining attached to the seedling;

25. In § 201.56-6:

a. Redesignate subdivisions (iv) and (v) of paragraph (a) (2) as subdivisions (v) and (vi).

b. Insert the following immediately after paragraph (a) (2) (iii):

(iv) Part of one cotyledon or two broken cotyledons with less than half the original tissue remaining attached.; Renumber the succeeding items.

§ 201.56-7 [Amendment]

26. In § 201.56-7, delete all the wording preceding paragraph (b) and substitute therefor the following wording:

(a) *Onion, Welsh onion, and leak.* By the end of the test period a perfectly

normal onion or leak seedling should have a long, slender root with a thickened area where it is joined to the hypocotyl, and a long, green cotyledon with a definite loop or bend, often referred to as the "knee".

(1) Normal seedlings include those that have: (i) A well-developed, long, slender root, with or without root hairs; (ii) a long, green, leaf-like cotyledon, with a well-developed bend or "knee" or (iii) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) A thickened hypocotyl with no root, or a stubby root, (ii) a very short cotyledon associated with a poorly developed root, (iii) a poorly developed leaf-like cotyledon without a definite bend or "knee", (iv) a spindly, watery cotyledon, often associated with slowness in sprouting, and one or more other abnormalities, (v) a rotted cotyledon, provided the decay is not the result of improper test conditions, or (vi) various combinations of the abnormalities described in this subparagraph.

§ 201.56-10 [Amendment]

27. In § 201.56-10, paragraph (a), renumber present subparagraph (4) as (6) and insert new subparagraphs as follows:

(4) Both cotyledons (thin leaf-like structures) present and intact, plus an intact epicotyl;

(5) At least one attached endosperm-bearing organ (fleshy food storage organs resembling cotyledons);

28. In § 201.56-10, paragraph (b), renumber subparagraphs (4) and (5) as subparagraphs (6) and (7), respectively, and insert the following new subparagraphs:

(4) No attached endosperm-bearing organ;

(5) Less than two cotyledons present;

§ 201.56-11 [Amendment]

29. In § 201.56-11, under "Nightshade family (solanaceae)" and after the

words "husk tomato," add the word "tobacco."

30. In § 201.56-11, paragraph (b), renumber subparagraphs (6) and (7) as subparagraphs (8) and (9), respectively, and insert the following new subparagraphs:

(6) Watery hypocotyl or root;

(7) Grainy hypocotyl or root;

§ 201.58 [Amendment]

31. Amend § 201.58 as follows:

a. Delete the wording in paragraph (a) (1) and substitute the following:

(a) *Definitions and explanations applicable to table 2—(1) Duration of tests.* The following deviations are permitted from the specified duration of tests: Any test may be terminated prior to the number of days listed under "Final count" if the maximum germination of the sample has then been determined. The number of days stated for the first count is approximate and a deviation of 1 to 3 days is permitted. If at the time of the prescribed test period the seedlings are not sufficiently developed for positive evaluation, it is possible to extend the time of the test period two additional days. (Also, see subparagraph (5) of this paragraph and § 201.57.)

b. In paragraph (a) (8) delete the third sentence and substitute therefor the following: "If the tests are not subjected to alternating temperatures over weekends and on holidays, they are to be held at the first-mentioned temperature during this time."

c. In paragraph (b) (3), insert the following sentence between the two existing sentences: "The temperature of the soaking and washing water should be no lower than 20° C."

d. In paragraph (c) revise Table 2 with respect to the agricultural and vegetable seeds listed below to show the information given in the columns opposite the names of said seeds: (It is not proposed to change the items left blank except in the case of "wheatgrass, western" as noted below.)

§ 201.58a [Amendment]

*32. Amend § 201.58a as follows:

a. In paragraph (a) insert the words "Annual or" before the word "Italian" and change the word "formula" to "formulas".

b. At the end of paragraph (a) add the following formula:

Percent annual or Italian ryegrass equals percent pure ryegrass minus percent perennial ryegrass

§ 201.60 [Amendment]

33. In § 201.60 amend the list of chaffy seeds by making the following indicated deletions and additions:

a. Delete the word "Bromegrass" and insert therefor the words "Bromus species".

b. Delete the words "Hairy intermediate wheatgrass", "Intermediate wheatgrass", "Wheatgrass, crested.", and

"Wheatgrass, Western", and insert the words "Agropyron spp.".

c. Delete the words "Wild-rye, Canada." and insert therefor the words "Elymus spp".

§ 201.102 [Amendment]

25. Amend § 201.102 by inserting in proper alphabetical order "Wheatgrass, western. 65".

§ 201.107 [Amendment]

26. Amend § 201.107 by adding "Cress, upland-Barbarea verna (Mill.) Aschers" in paragraph (b) immediately following the words "Chicory—Cichorium intybus L."

AVOCADOS GROWN IN SOUTH FLORIDA

Handling

Consideration is being given to the following proposals of the Avocado Administrative Committee established under the Marketing Agreement and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

(a) That all avocados handled be required to meet the requirements of the U.S. Combination grade.

(b) That no avocados of the Arue variety shall be handled unless the indi-

vidual fruit in each lot of such avocados weighs at least 14 ounces.

(c) That no avocados of the varieties listed in Column 1 of the following table shall be handled prior to 12:01 a.m., e.s.t.,

of the date listed for the respective variety in Column 2 of such table and thereafter each such variety shall be handled only in conformance with paragraphs (d), (e), (f), and (i) hereof.

(d) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety of Column 2 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 4 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 3 of such table or is of at least the diameter specified for such variety in said Column 3;

(e) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 4 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 6 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 5 of such table or is of at least

the diameter specified for such variety in said Column 5;

(f) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 6 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 8 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 7 of such table or is of at least the diameter specified for such variety in said Column 7;

(g) That varieties of the West Indian type of avocados not listed in paragraph (b) or in Table I shall not be handled except in accordance with the following terms and conditions:

(1) Such avocados shall not be handled prior to 12:01 a.m., e.s.t., June 13, 1960.

(2) During the period beginning at 12:01 a.m., e.s.t., June 13, 1960, and ending at 12:01 a.m., e.s.t., June 27, 1960, the individual fruit in each lot of such avocados shall weigh at least 16 ounces.

(3) During the period beginning at 12:01 a.m., e.s.t., June 27, 1960, and ending at 12:01 a.m., e.s.t., July 25, 1960, the individual fruit in each lot of such avocados shall weigh at least 14 ounces.

(4) During the period beginning at 12:01 a.m., e.s.t., July 25, 1960, and ending at 12:01 a.m., e.s.t., September 12, 1960, the individual fruit in each lot of such avocados shall weigh at least 12 ounces.

(5) Any lot of such avocados may be handled without regard to the minimum weight requirements of this paragraph (g) if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(h) That varieties of avocados not covered by paragraphs (b) through (g) hereof shall not be handled except in accordance with the following terms and conditions:

(1) Such avocados shall not be handled prior to 12:01 a.m., e.s.t., September 19, 1960.

(2) During the period beginning at 12:01 a.m., e.s.t., September 19, 1960, and ending at 12:01 a.m., e.s.t., October 17, 1960, the individual fruit in each lot of such avocados shall weigh at least 15 ounces.

(3) During the period beginning at 12:01 a.m., e.s.t., October 17, 1960, and ending at 12:01 a.m., e.s.t., December 19, 1960, the individual fruit in each lot of such avocados shall weigh at least 13 ounces.

(4) Any lot of such avocados may be handled without regard to the minimum weight requirements of this paragraph (h) if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(i) Notwithstanding the provisions of paragraphs (b) through (h) hereof regarding the minimum weight or diameter for individual fruit, up to 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided*, That such avocados weigh not more than two ounces less than the applicable specified weight for the particular variety as prescribed in Columns 3, 5, or 7 of Table I or in paragraphs (b), (g), and (h). Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot;

(j) As used herein, the term "U.S. Combination grade" shall have the same meaning as set forth in the United States

Standards for Florida Avocados (7 CFR 51.3050-51.3069).

All persons who desire to submit written data, views, or arguments for consideration in connection with the foregoing should do so by forwarding the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D.C., not later than June 1, 1960.

Dated: May 18, 1960.

AVOCADOS

Importation; Quality and Maturity Requirements

Notice is hereby given that the Department is giving consideration to the quality and maturity requirements that should be made applicable to the importation of avocados into the United States, pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and to requiring inspection and certification of each such import by the Federal or Federal-State Inspection Service pursuant to the provisions of § 1060.4 of the general regulations (7 CFR Part 1060) applicable to the importation of certain listed commodities (including avocados).

The requirements under consideration are as follows and are designed to impose grade and maturity restrictions on imports of avocados that are comparable to those being made applicable to the handling of Florida avocados pursuant to the marketing agreement, as amended,

and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in south Florida:

(a) All avocados imported shall meet the requirements of the U.S. Combination grade.

(b) Avocados of the Pollock variety shall not be imported (1) prior to 12:01 a.m., e.s.t., June 27, 1960; and (2) during the period beginning at 12:01 a.m., e.s.t., June 27, 1960, and ending at 12:01 a.m., e.s.t., August 1, 1960, unless the individual fruit in each lot of such avocados weigh at least 16 ounces or measure at least $3\frac{3}{16}$ inches in diameter.

(c) Avocados of the Catalina variety shall not be imported (1) prior to 12:01 a.m., e.s.t., June 27, 1960; and (2) during the period beginning at 12:01 a.m., e.s.t., June 27, 1960, and ending at 12:01 a.m., e.s.t., August 1, 1960, unless the individual fruit in each lot of such avocados weigh at least 18 ounces.

(d) Avocados of the Trapp variety shall not be imported (1) prior to 12:01 a.m., e.s.t., August 1, 1960; and (2) during the period beginning at 12:01 a.m., e.s.t., August 1, 1960, and ending at 12:01 a.m., e.s.t., August 29, 1960, unless the individual fruit in each lot of such avocados weigh at least 12 ounces or measure at least $3\frac{3}{16}$ inches in diameter.

(e) Avocados of any variety not specified in paragraphs (b) through (d) hereof shall not be imported (1) prior to 12:01 a.m., e.s.t., July 11, 1960, unless the individual fruit in each lot of such avocados weigh at least 14 ounces; (2) during the period beginning at 12:01 a.m., e.s.t., July 11, 1960, and ending at 12:01 a.m., e.s.t., August 29, 1960, unless the individual fruit in each lot of such avocados weigh at least 12 ounces; and (3) during the period beginning at 12:01 a.m., e.s.t., August 29, 1960, and ending at 12:01 a.m., e.s.t., September 12, 1960, unless the individual fruit in each lot of such avocados weigh at least 10 ounces: *Provided*, That any lot of such avocados

may be imported without regard to the minimum weight requirements of this paragraph if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(f) Notwithstanding the provisions of paragraphs (b) through (e) hereof regarding the minimum weight or diameter for individual fruit, not to exceed 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided*, That such avocados weigh not more than 2 ounces less than the applicable specified weight for the particular variety prescribed in such paragraphs. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot.

(g) As used herein, the terms "U.S. Combination grade" shall have the same meaning as set forth in the United States Standards for Florida Avocados (7 CFR 51.3050-51.3069).

All persons who desire to submit written data, views, or arguments for consideration in connection with the foregoing should do so by forwarding the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D.C., not later than June 1, 1960.

Federal Maritime Board

[Docket No. S-60 (Sub. No. 2), Docket No.
S-64 (Sub. No. 1)]

ISBRANDTSEN CO., INC.

Amended Notice of Hearing

Notice is hereby given that a public hearing will be held on an application filed by Isbrandtsen Company, Inc., for a waiver, to the extent required by the provisions of section 804 of the Merchant Marine Act, 1936, as amended, to permit the continuance of the below-described foreign-flag activities by an associated company, in the event the Federal Maritime Board awards operating-differential subsidies to Isbrandtsen Company, Inc., under section 601 of said Act:

The ownership by Mr. Jakob Isbrandtsen, President and a Director of Isbrandtsen Company, Inc., of approximately 42 percent of the outstanding common stock of Canadian Foreign Steamship Company Limited, which company has under long-term bareboat charter, three Dutch-flag combination ore/tanker vessels of approximately 26,500 d.w.t. each. These vessels are employed primarily in the carriage of iron ore in bulk from Chilean ports to ports in the United States and Canada, and from time to time, in the carriage of oil in bulk from Caribbean ports to ports in Peru and Chile. In addition, the Canadian Foreign Steamship Company Limited employs other foreign-flag vessels, on occasion, on time or voyage charters for the carriage of bulk ore from Chile to the United States, Canada and other foreign destinations.

The purpose of the hearing is to receive evidence relevant to, and whether

and to what extent, the provisions of section 804 apply to the above-described activities and if so, whether special circumstances and good cause exist so as to justify a waiver of the provisions of this section.

The hearing will be before Examiner C. B. Gray, in Room 4519, General Accounting Office Building, Washington, D.C., beginning at 10 o'clock a.m., May 25, 1960. A recommended decision will be issued.

No briefs will be permitted, but any party will be permitted to offer oral argument before the Presiding Officer at the close of the hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in the proceeding, must file notification thereof with the Secretary, Federal Maritime Board, Washington 25, D.C., in writing in triplicate by the close of business on May 24, 1960.

Dated: May 19, 1960.

By order of the Federal Maritime Board.

FEDERAL AVIATION AGENCY

CIVIL AIR SURGEON, ET AL.

Delegation of Authority

1. *Purpose.* The purpose of this notice is to delegate to the Civil Air Surgeon, his authorized representatives, and designated medical examiners, certain authority of the Administrator under Title VI of the Federal Aviation Act of 1958 relating to the physical examination and medical certification of airmen.

2. *Delegation.* Section 303(d) of the Federal Aviation Act of 1958 authorizes the Administrator to delegate the performance of any function under the Act to any officer, employee, or administrative unit under his jurisdiction. Section 314(a) of the Act also authorizes the Administrator to delegate to qualified private persons the performance of functions respecting the examination and certification of airmen in accordance with established standards.

The authority vested in the Administrator by sections 602(a) and 602(b) of the Federal Aviation Act of 1958 is hereby delegated to the Civil Air Surgeon and his authorized representatives within the Agency to the extent necessary (a) to examine applicants for and holders of airman medical certificates for compliance with the medical standards applicable to the issuance or renewal of airman medical certificates; and (b) to issue, renew, or deny issuance or renewal of airman medical certificates to applicants or holders of such certificates based upon compliance or non-compliance with the applicable medical standards.

The authority delegated above, except the authority to deny issuance or renewal of airman medical certificates, is also delegated to such properly qualified private persons as may be designated as medical examiners, to be exercised under the general supervision of the Civil Air Surgeon and his authorized representatives and upon such conditions as the Civil Air Surgeon and his authorized representatives may provide or may otherwise be applicable.

The Civil Air Surgeon, his authorized representatives, and all persons to whom authority is delegated herein, are directed to exercise their delegated authority in accordance with all applicable policies established or approved by the Administrator.

3. *Effective date.* This notice is effective May 21, 1960.

Issued in Washington, D.C., on May 17, 1960.

E. R. QUESADA,
Administrator.

[Docket No. 13514; FCC 60-552]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Order Instituting Investigation

In the matter of American Telephone and Telegraph Company, Docket No. 13514; regulations and charges for switching and selecting equipment (common user group and dual facility arrangements) for use with channels of telephone grade furnished for the remote operation of mobile radiotelephone systems.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 16th day of May, 1960;

The Commission having under consideration (1) certain tariff schedules filed by the American Telephone and Telegraph Company (AT&T), under its transmittal No. 6272, to become effective May 17, 1960, establishing new regulations and charges applicable to switching and selecting equipment (common user group and dual facility arrangements) for use with channels of tele-

phone grade furnished for remote operation of mobile radiotelephone systems, such tariff schedules being designated A.T. & T. Tariff F.C.C. No. 135. Original pages 41D, 41E and 41F and A.T. & T. Tariff F.C.C. No. 237, 5th Revised page 12, and (2) a petition by the United States of America, through its Administrator of General Services, filed May 11, 1960, requesting that the Commission suspend the above new tariff schedules and that it initiate a hearing and investigation into the lawfulness thereof;

It appearing that the Commission is unable to determine that the regulations and charges contained in the new tariff schedules are or will be just and reasonable or otherwise lawful under the provisions of section 201(b) or section 202(a) of the Communications Act of 1934, as amended;

It further appearing that no rights and interests of the public will be substantially affected if these regulations and charges are permitted to become effective as scheduled since there is only one customer who would be affected by them and since such customer has a remedy by way of complaint for damages pursuant to the provisions of section 208 of the Communications Act of 1934, as amended, in the event the tariff schedules are determined to be unjust, unreasonable or otherwise unlawful;

It further appearing that the revision of Tariff F.C.C. No. 237 referred to above is automatically under investigation in Docket No. 12194;

It is ordered, That, pursuant to the provisions of sections 201, 202, 204, 205 and 403 of the Communications Act of 1934, as amended, an investigation is hereby instituted into the lawfulness of the above-mentioned new tariff schedules, including amendments thereto and successive issues thereof, except the aforementioned revision of Tariff F.C.C. No. 237;

It is further ordered, That, without in any way limiting the scope of the investigation, it shall include consideration of the following:

1. Whether any of the classifications, regulations, and practices contained in the above-mentioned tariff schedules are or will be unjust and unreasonable within the meaning of section 201(b) of the Communications Act of 1934, as amended;

2. Whether the above-mentioned tariff schedules will subject any person or class of persons to unjust or unreasonable discrimination, or give any undue or unreasonable preference or advantage to any person, class of persons, or locality, or subject any person, class of persons, or locality to any undue or unreasonable prejudice or disadvantage within the meaning of section 202(a) of the Communications Act of 1934, as amended;

3. Whether the Commission should prescribe just and reasonable classifications, regulations, and practices to be followed with respect to the services governed by the tariff schedules listed above and, if so, what classifications, regulations, and practices should be prescribed;

It is further ordered, That a hearing be held in this proceeding at the Commission's offices in Washington, D.C., at

a time to be specified; and that the examiner to be designated to preside at the hearing shall certify the record to the Commission for decision without preparing either an Initial Decision or a Recommended Decision;

It is further ordered, That American Telephone and Telegraph Company and all carriers concurring in the above-mentioned tariff schedules are hereby made parties respondent in the proceedings, and the United States of America, through its Administrator of General Services, is hereby granted leave to intervene upon filing notice of intention to participate in these proceedings within twenty days from the date of issuance of the Order;

It is further ordered, That the petition of the United States of America, through its Administrator of General Services, is granted to the extent indicated herein and in all other respects is denied.

GENERAL TELEPHONE COMPANY OF THE NORTHWEST

Order Continuing Hearing Conference

In the matter of General Telephone Company of the Northwest, Docket No. 13386, regulations and charges for supplemental equipment in connection with pulse data-in (slowed down video) transmission.

The Hearing Examiner having under consideration a pleading filed May 13, 1960, on behalf of General Telephone Company of the Northwest requesting that the further prehearing conference now scheduled for May 17, 1960, be stayed until after the Commission has acted upon a motion filed May 13, 1960, by General Telephone Company of the Northwest requesting the Commission to dismiss this proceeding; and

It appearing that the reason for the requested continuance is to provide for time to enable the Commission to act on the motion to dismiss filed May 13, 1960, by the above-entitled applicant; and

¹ In all events each party individually is expected to be fully prepared at the conference to discuss practicable methods directed to the elimination of unessentials and to the orderly and expeditious conduct of the hearing.

It further appearing that counsel for the Common Carrier Bureau and for the Administrator of General Services (GSA) have consented informally to the requested continuance, that immediate action on said pleading is necessary, and good cause for granting the requested continuance having been shown;

It is ordered, This the 16th day of May 1960, that the pleading requesting a stay of the further prehearing conference is granted and the further prehearing conference now scheduled for May 17, 1960, is continued until after the Commission has acted on applicant's petition to dismiss.

It appearing that, at various times between May 22, 1959, and April 11, 1960, the above-named licensee wilfully intercepted, without the authority of the senders, communications transmitted by radio by the Police Department of the City of Rochester, New York, on the frequency 159.21 megacycles and by Central Ambulance Service, Inc., on the frequency 161.191 megacycles; or having received such intercepted communications or the contents, substance, purport, effect or meaning thereof, knowing that such information was so obtained; or having become acquainted with such intercepted communications or the contents, substance, purport, effect or meaning thereof, knowing that such information was so obtained, wilfully used the same or part thereof for its own benefit, in violation of section 605 of the Communications Act of 1934, as amended;

It is ordered, This 16th day of May, 1960, pursuant to section 312(a) (4), (b) and (c) of the Communications Act of 1934, as amended, and section 0.291 (b) (8) of the Commission's Statement of Delegations of Authority, that National Ambulance & Oxygen Service, Inc., show cause why the license for Special Emergency Radio Station KED-379 should not be revoked or, in the alternative, why the said National Ambulance & Oxygen Service, Inc., its agents and employees,

should not be ordered to cease and desist from intercepting, without the authority of the senders, communications transmitted by radio by the Police Department of the City of Rochester on the frequency 159.21 megacycles and by Central Ambulance Service, Inc., on the frequency 161.191 megacycles; from using information which it knows to have been obtained by means of the interception of such communications; and from having in its possession or custody apparatus for the reception of signals transmitted by radio by the Police Department of the City of Rochester on the frequency 159.21 megacycles and by Central Ambulance Service, Inc., on the frequency 161.191 megacycles, and appear and give evidence in respect thereto at a hearing¹ to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this Order by Certified Mail (Air Mail)—Return Receipt Requested to the said National Ambulance & Oxygen Service, Inc., 255 Exchange Street, Rochester 14, New York.

Released: May 17, 1960.

Order Scheduling Prehearing Conference

In re applications of Thomas R. Bromeley, Mary Ann Satterwhite, Char-

¹Section 1.62 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard, shall, in person or by his attorney, file with the Commission, within thirty days of the receipt of the order to show cause, a written statement stating that he will appear at the hearing and present evidence on the matter specified in the order. In the event it would not be possible for respondent to appear for hearing in the proceeding if scheduled to be held in Washington, D.C., he should advise the Commission of the reasons for such inability within five days of the receipt of this order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the order to show cause. If such statement contains, with particularity, factual allegations denying or justifying the facts upon which the show cause order is based, the Hearing Examiner may call upon the submitting party to furnish additional information, and shall request all opposing parties to file an answer to the written statement and/or additional information. The record will then be closed and an initial decision issued on the basis of such procedure. Where a hearing is waived and no written statement has been filed within the thirty days of the receipt of the order to show cause, the allegations of fact contained in the order to show cause will be deemed as correct and the sanctions specified in the order to show cause will be invoked.

ZEPHYR BROADCASTING CORP. AND MYRON A. RECK (WTRR)

Order Continuing Hearing

In re applications of Zephyr Broadcasting Corp., Zephyrhills, Florida, Docket No. 13211, File No. BP-12291; Myron A. Reck (WTRR), Sanford, Florida, Docket No. 13212, File No. BP-12900; for construction permits.

The applicant, Zephyr Broadcasting Corporation, on April 29, filed renewal of motion to delete issues and for leave to file affidavits, and reply to oppositions. On May 3, 1960, Myron Reck (WTRR)

also an applicant herein filed a motion to delete issues. On May 12, 1960, on behalf of the Chief, Broadcasting Bureau, there was filed a statement of removal of motion to delete issues and in this pleading the Bureau recited certain conditions surrounding the status of both applications in the proceeding. Good cause exists why the hearing now scheduled in the proceeding for May 24, 1960, at 10:00 o'clock a.m., at Commission Offices, should be continued without date pending final disposition of these matters.

Accordingly it is ordered, This 17th day of May 1960, that the hearing on this

proceeding now scheduled for May 24, 1960, 10:00 a.m. at the Commission Offices, Washington, D.C., be, and the same is hereby continued to a date to be hereinafter determined.

¹ The stated effective dates are those requested by respondents or the first day after expiration of the required thirty days' notice, whichever is later.

In support, Standard Oil Company of Texas states that the proposed rates were negotiated at arm's-length in a competitive market.

In support of the increased rates, Continental Oil Company cites the contract provisions; McDermott mentions arm's-length bargaining and states the pricing provisions collectively represent the negotiated contract price; and Big "6" Drilling mentions arm's-length bargaining and states the proposed rate constitutes an integral part of the consideration upon which the contract is based.

In support, Helmerich & Payne, Inc., states that the gas produced from the dedicated acreage comes from the Morrow formation rather than the Hugoton formation; the cost of drilling, completing and equipping a Morrow gas well is three times that of a Hugoton gas well; and the costs of labor and materials in the oil and gas industry have materially increased.

Goldston states that the amendatory agreement was negotiated at arm's-length; seller gave up the advantage of the favored-nation clause; the Commission has certificated sales in the area at prices equal to the one here proposed; and the increase is necessary to enable plant owners to acquire new reserves.

In support, Pure Oil Company states that its contracts were negotiated at arm's-length; and the proposed rates are no more than the market value of the gas.

The proposed rate changes may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Com-

mission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed changes in rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, each of the above-designated supplements is hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rates schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37 (f)) on or before June 27, 1960.

NORTHERN STATES POWER CO.

Notice of Application

MAY 13, 1960.

Take notice that on May 9, 1960, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Northern States Power Company ("Applicant"), a corporation organized under the laws of the State of Minnesota and doing business in the States of Minnesota, North Dakota and South Dakota, with its principal business office at Minneapolis, Minnesota, seeking an order authorizing the issuance of unsecured promissory notes not exceeding an aggregate at any one time outstanding of \$42,500,000. The proposed notes will be issued from time to time during the year 1960 to evidence borrowings from commercial banks. Each note will be dated as of the date of its issue, will mature not more than twelve months thereafter, and will bear interest at a rate not to exceed the prime rate at the time and place of the borrowing which the note evidences. The proceeds from the aforesaid bank borrowings to be evidenced by the promissory notes will be added to Applicant's general funds and be used in part to pay for Applicant's construction program for 1960 and in part to acquire Minnesota properties of Northern States Power Company, a Wisconsin corporation, a wholly owned subsidiary of Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before the third day of June 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's

rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

FEDERAL RESERVE SYSTEM

OTTO BREMER CO.

Order Approving Application Under Bank Holding Company Act

In the matter of the request of Otto Bremer Company for determination under section 4(c) (6) of the Bank Holding Company Act of 1956 with respect to Foster County Agency, Inc.

The Otto Bremer Company, St. Paul, Minnesota, a bank holding company within the meaning of section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. sec. 1843), has filed a request for a determination by the Board of Governors of the Federal Reserve System that a corporation to be formed, the Foster County Agency, Inc., and its activities are of the kind described in section 4(c) (6) of the Act and section 5(b) of the Board's Regulation Y (12 CFR 222.5(b)), so as to make it unnecessary for the prohibitions of section 4 of the Act with respect to retention of shares in nonbanking organizations to apply in order to carry out the purposes of the Act.

A hearing having been held pursuant to section 4(c) (6) of the Act and in accordance with sections 5(b) and 7(a) of the Board's Regulation Y (12 CFR 222.5(b) and 222.7(a)); the Hearing Examiner having filed on April 7, 1960, his Report and Recommended Decision wherein he recommended that the request with respect to Foster County Agency, Inc. be approved; the time for filing with the Board exceptions and brief to the recommended decision of the Hearing Examiner having expired without any exceptions or brief having been filed; the Board having given due consideration to all relevant aspects of the matter; and all such steps having been taken in accordance with the Board's rules of practice for Formal Hearings (12 CFR Part 263):

It is hereby ordered, For the reasons set forth in the accompanying Statement¹ of the Board of this date, that Foster County Agency, Inc. and its activities are determined to be so closely related to the business of banking or of managing or controlling banks as to be a proper incident thereto and as to make it unnecessary for the prohibitions of section 4 of the Bank Holding Company Act of 1956 to apply in order to carry out the purposes of that Act, and, therefore, Applicant's request with respect to Foster County Agency, Inc. shall be, and hereby is, granted; provided that this determination shall be subject to revoca-

tion by the Board if the facts upon which it is based should substantially change in such a manner as to make the reasons for such determination no longer applicable.

Dated at Washington, D.C., this 16th day of May 1960.

By order of the Board of Governors.

SOLAR AIRCRAFT CO.

Notice of Application To Strike From Listing and Registration and of Opportunity for Hearing

MAY 17, 1960.

In the matter of Solar Aircraft Company, common stock; File No. 1-3109.

New York Stock Exchange has filed an application with the Securities and Ex-

change Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-1(b) promulgated thereunder, to strike the specified security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following: Less than 30,000 shares are held by others than International Harvester Company.

Upon receipt of a request, on or before June 3, 1960, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D.C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official files of the Commission pertaining to the matter.

BIG RED URANIUM CO.

Order Temporarily Suspending Ex- emption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

MAY 16, 1960.

I. Big Red Uranium Co., an Oklahoma corporation, 917 First National Bank Building, Oklahoma City, Oklahoma, filed with the Commission on December 6, 1954, a notification and an offering circular relating to an offering of 2,755,000 shares of its 1 cent par value common stock at 10 cents per share for an aggregate of \$275,000, and filed various amendments thereto, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that Big Red Uranium Co. has failed to file reports of sales on Form 2-A as required by Rule 224.

B. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make that statements made, in the light of the circumstances under which they are made,

¹ Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D.C., or to any Federal Reserve Bank.

not misleading, particularly with respect to:

1. The failure to reflect the current status of performance of assessment work on the company's unpatented mining claims.

2. The failure to reflect the status of exercise of option to purchase mining claims.

3. The failure to reflect the current status of performance of contracts to purchase mining claims.

C. The offering, if made on the basis of the offering circular on file without appropriate disclosure in the foregoing matters, would be made in such manner as to operate as a fraud and deceit upon purchasers.

III. *It is ordered*, Pursuant to Rule 223(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

UNITED CANADIAN URANIUM CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

MAY 16, 1960.

I. United Canadian Uranium Corporation, a Colorado corporation, 701 E & C Building, Denver 2, Colorado, filed with the Commission on February 7, 1955 a notification on Form 1-A and an offering circular relating to an offering of 1,188,000 shares of its 1 cent par value common stock at 25 cents per share for an aggregate of \$297,000, and filed various amendments thereto, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of Section 3(b) thereof, and Regulation A promulgated thereunder; and

II. The Commission has reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that United Canadian Uranium Corporation has failed to file

reports of sales on Form 2-A as required by Rule 224.

III. *It is ordered*, Pursuant to Rule 223(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this Order of Suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearings will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DuBois,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

WATER POLLUTION CONTROL: INTERSTATE WATERS OF MISSOURI RIVER TURKEY CREEK SEWER KANSAS CITIES METROPOLITAN AREA

Notice of Public Hearing

Whereas, on the basis of reports, surveys, and studies, the Surgeon General, having reason to believe that discharges of untreated or inadequately treated sewage and industrial wastes from the cities of Kansas City, Kansas, Kansas City, Missouri, and North Kansas City, Missouri, and industries associated therewith, cause or contribute to pollution subject to abatement under the Federal Water Pollution Control Act (70 Stat. 504, 33 U.S.C. 466g), called a conference pursuant to section 8 of said Act, with respect to the pollution of the interstate waters of the Missouri River in the Kansas cities Metropolitan Area; and,

Whereas the conferees representing December 3, 1957, at Kansas City, Missouri; and,

Whereas, such conference was held on the official State water pollution control agencies of the States of Missouri and Kansas and the Surgeon General of the Public Health Service unanimously agreed:

1. That pollution of interstate waters subject to abatement under the Federal Water Pollution Control Act is occurring in the Kansas and Missouri Rivers-Kansas Cities Metropolitan Area. The major sources of such pollution are untreated and inadequately treated sewage and industrial wastes from Kansas City,

Kansas, Kansas City, Missouri and North Kansas City, Missouri, and local industrial establishments finding their way into the waters of the Missouri River (an interstate water as defined by the Federal Act) and tributary streams in the Kansas Cities Metropolitan Area;

2. That the effects of this pollution are: (1) Deterioration of water quality for public water supply at Lexington, Boonville, Jefferson City, Glasgow, St. Charles, St. Louis City, and St. Louis County, Missouri, with associated enhancement of possible disease transmission; (2) increased concentrations of coliform and other organisms associated with human diseases which constitute a health hazard to commercial and recreational users of the river; (3) deterioration of water quality so as to prevent the full use of the river as a commercial fishery; (4) deterioration of water quality so as to prevent the use of the river for sport fishing; (5) impairment of water quality so as to interfere with navigation (6) impairment of water quality so as to interfere with actual and potential use of the river for many industrial uses; (7) interference with water quality so as to degrade the Missouri River Area below the Kansas City Metropolitan Area as a wildfowl habitat; (8) deterioration of water quality to the extent that severe sight and odor nuisances have been created resulting in serious impairment of the river as a recreational area specifically preventing the use of various river front sites for recreational areas and parks.

3. That the measures presently used for disposal of sewage and industrial wastes from Kansas City, Kansas, Kansas City, Missouri, North Kansas City, Missouri, and associated industries are not adequate to secure abatement of pollution of the Missouri River;

4. That the delays encountered in the abatement of such pollution are due to the lack of installation of adequate waste treatment facilities or other methods for reduction of pollution by the municipalities and industries concerned;

5. That Kansas City, Kansas, Kansas City, Missouri, North Kansas City, Missouri, and associated industries should provide adequate treatment for wastes prior to their discharge;

6. That industries in the Kansas Cities Metropolitan Area should either discharge their wastes to a municipal waste collection and treatment system or provide adequate treatment for their wastes;

7. That basic engineering and feasibility reports for adequate treatment facilities be completed by Kansas City, Missouri, not later than March 1, 1958; cognizance is taken of the fact that Kansas City, Kansas and North Kansas City, Missouri, already have done this.

8. That acceptance and revision of basic engineering and feasibility reports for adequate waste treatment facilities be completed by city officials of Kansas City, Missouri, and North Kansas City, Missouri, not later than September 1, 1958; cognizance is taken of the fact that Kansas City, Kansas, already has done this;

9. That the cities of Kansas City, Missouri, North Kansas City, Missouri, and Kansas City, Kansas, complete all necessary financial arrangements not later than September 1, 1959. The conferees strongly urge, however, that the Mayors and other city officials of these three cities explore the feasibility of putting the bond issue before the voters at an earlier date, preferably not later than January 1, 1959;

10. That the first construction contracts for these waste treatment facilities be let by Kansas City, Kansas, and Kansas City, Missouri, not later than January 1, 1960, by North Kansas City, Missouri, not later than June 1, 1960, with the understanding that the city officials of North Kansas City, Missouri, explore the feasibility of letting their first contract earlier so that it may coincide with the schedule of the other two cities;

11. That the balance of the construction contracts for these remedial works be let by Kansas City, Kansas, and Kansas City, Missouri, not later than March 1, 1960, and by North Kansas City, Missouri, not later than September 1, 1960, with the understanding that city officials of North Kansas City, Missouri, explore the feasibility of letting their contracts earlier so they will coincide with the schedule of the other two cities;

12. That adequate waste treatment facilities for Kansas City, Kansas, Kansas City, Missouri, and North Kansas City, Missouri, be completed and in operation by March 1, 1962, with the understanding that the complete separation of storm and sanitary sewage from Kansas City, Kansas, may not be effectuated until January 1, 1963;

13. That industry in the Kansas Cities Metropolitan Area either connect with a municipal waste disposal system or complete and put into operation adequate treatment works for disposal of domestic and industrial wastes not later than March 1, 1962, but that all efforts be made to secure earlier treatment;

14. That industry is to give the appropriate municipality ample notification before the municipality places the question of financing before its voters as to whether such industries are going to join the municipal waste disposal systems; and,

Whereas, the Surgeon General of the Public Health Service on January 31, 1958, recommended to the Missouri Department of Public Health and Welfare and to the Kansas State Board of Health that they take appropriate steps under their State water pollution control programs to insure that contributors to such pollution within their jurisdiction take steps to meet the time schedule for remedial action unanimously agreed upon by the conferees;

Whereas, although cognizance is taken of compliance with schedules of corrective action for Kansas City, Kansas and the Fairfax Drainage District, Kansas as approved by the Kansas State Board of Health, I find that pollution in the Kansas Cities Metropolitan Area is so complex and commingled that the recommendation of reasonable and equitable measures to abate such pollution requires

consideration of action of all parties named in this notice and the coordination thereof, and I further find that the remedial action recommended by the Surgeon General, described above, or action reasonably calculated to secure abatement of such pollution has not been taken:

Now therefore, pursuant to section 8 (e) of the Federal Water Pollution Control Act (70 Stat. 505, 33 U.S.C. 466g(e)) I hereby call a public hearing to begin at 9 a.m., c.s.t., on June 13, 1960, at the Appeals Court Room, 6th floor, U.S. Court House, 811 Grand Avenue, Kansas City, Missouri, before a Hearing Board composed of the following named persons:

Mr. Chester S. Wilson, Chairman.
Mr. William G. Salome, (representing the State of Kansas).
Mr. James W. Bibb (alternate to Mr. William G. Salome).
Mr. Freeman R. Johnson (representing the State of Missouri).
Mr. Sylvester E. Ridge (representing the U.S. Department of Commerce).
Mr. Blucher A. Poole.
Mr. John S. Samson.

On the basis of the evidence presented at such hearing, the Board shall make findings as to whether the cities of Kansas City, Kansas, Kansas City, Missouri, the industrial establishments located in and adjacent to these cities, and other persons named below are causing or contributing to pollution of interstate waters which endangers the health or welfare of persons in a State other than that in which the discharges originate, by discharges into or reaching the Kansas River, Turkey Creek Sewer or the Missouri River, and whether, if it so finds, effective progress towards abatement thereof is being made. If said Board finds that such pollution is occurring and effective progress towards abatement is not being made, said Board shall make its recommendations to me concerning the measures, if any, which it finds reasonable and equitable to secure abatement of such pollution.

Notice of such public hearing is hereby given to the following:

Missouri Department of Public Health and Welfare, Jefferson City, Mo.
Kansas State Board of Health, State Capitol Building, Topeka, Kans.
City of Kansas City, Mo.
City of Kansas City, Kans.
Fairfax Drainage District of Kansas.
Kaw Valley Drainage District of Kansas.

ATOMIC ENERGY COMMISSION

[Docket No. 50-38]

MARTIN CO.

Notice of Proposed Issuance of Facility License Amendment

Please take notice that, unless within fifteen days after the filing of this notice with the Office of the Federal Register a request for a formal hearing is filed with the United States Atomic Energy

Commission as provided by the Commission's rules of practice (Title 10, CFR Chapter 1, Part 2), the Commission proposes to issue an amendment to Facility License No. CX-7 substantially as set forth below. The amendment would authorize The Martin Company, as requested in its application for license amendment dated May 5, 1960, to conduct experiments which involve the use of components consisting of homogeneous dispersions in plastic of uranium, stainless steel, and boron, in Test Cell No. 2 of its Critical Experiments Facility located near Middle River, Maryland. Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (1) the application for license amendment dated May 5, 1960, submitted by The Martin Company, and (2) a hazards analysis prepared by the Hazards Evaluation Branch, Division of Licensing and Regulation, both on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 16th day of May 1960.

Licensing and Regulation.

**PROPOSED AMENDMENT TO UTILIZATION
FACILITY LICENSE**

[License No. CX-7 Amendment No.]

License No. CX-7, as amended, issued to The Martin Company, is hereby amended in the following respects:

In addition to the activities previously authorized by the Commission in License No. CX-7, as amended, The Martin Company is authorized to conduct experiments which involve the use of components consisting of homogeneous dispersions in plastic of uranium, stainless steel, and boron, in Test Cell No. 2 of the Company's Critical Experiments Facility located near Middle River, Maryland, as described in the Company's application for license amendment dated May 5, 1960. The conduct of the experiments shall be in accordance with the procedures and subject to the limitations contained in License No. CX-7, as amended, and in the application for license amendment dated May 5, 1960.

This amendment is effective as of the date of issuance.

UNIVERSITY OF VIRGINIA

**Notice of Proposed Issuance of Facility
License**

Please take notice that, unless within fifteen days after the filing of this notice with the Office of the Federal Register a request for a formal hearing is filed with the United States Atomic Energy Commission as provided by the Commission's rules of practice (Title 10, Chapter 1, Part 2), the Commission proposes to issue to University of Virginia, Charlottesville, Virginia, a facility license substantially as set forth below authorizing the possession and operation on the University's campus of a pool-type nuclear reactor at power levels up to 1,000 kilowatts (thermal). Prior to issuance of the license the reactor will be inspected by representatives of the Commission to determine whether it has been constructed in accordance with the provisions of Construction Permit No. CPRR-15, as amended. Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (1) the application submitted by University of Virginia and amendments thereto, and (2) a hazards analysis prepared by the Hazards Evaluation Branch, Division of Licensing and Regulation, both on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 16th day of May 1960.

For the Atomic Energy Commission.

Deputy Director, Division of
Licensing and Regulation.

PROPOSED LICENSE

1. This license applies to the light water cooled and moderated swimming pool-type nuclear reactor (hereinafter referred to as "the reactor") which is owned by University of Virginia and located on the University's campus at Charlottesville, Virginia, and described in the application dated March 14, 1957, and amendments thereto dated June 7, 1957, December 2, 1957, December 20, 1957, January 20, 1958, February 26, 1958, April 23, 1958, May 1, 1958, September 23, 1958, November 11, 1958, April 17, 1959, May 25, 1959, July 2, 1959, September 4, 1959, December 4, 1959, February 5, 1960, (hereinafter collectively referred to as "the application").

2. Pursuant to the Atomic Energy Act of 1954, as amended, (hereinafter referred to as "the Act") and having considered the record in this matter, the Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The reactor has been constructed in conformity with Construction Permit No. CPRR-15 issued to University of Virginia and will operate in conformity with the application and in conformity with the Act and with the rules and regulations of the Commission;

B. There is reasonable assurance that the reactor can be operated at the designated location without endangering the health and safety of the public;

C. University of Virginia is technically and financially qualified to operate the reactor, to assume financial responsibility for payment of Commission charges for special nuclear material and to undertake and carry out the proposed use of such material for a reasonable period of time, and to engage in the proposed activities in accordance with the Commission's regulations;

D. The possession and operation of the reactor and the receipt, possession and use of the special nuclear material in the manner proposed in the application will not be inimical to the common defense and security or to the health and safety of the public; and

E. University of Virginia is a nonprofit educational institution and will use the reactor for the conduct of educational activities. University of Virginia is therefore exempt from the financial protection requirements of subsection 170a of the Act.

3. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses University of Virginia:

A. Pursuant to section 104c of the Act and Title 10, CFR Chapter 1, Part 50, "Licensing of Production and Utilization Facilities", to possess and operate the reactor as a utilization facility at the designated location near Charlottesville, Virginia, in accordance with the procedures and limitations described in the application and this license;

B. Pursuant to the Act and Title 10, CFR Chapter 1, Part 70, "Special Nuclear Material", to receive, possess and use up to 6,900 kilograms of contained uranium 235 and 16 grams of plutonium in a Pu-Be source for use in connection with operation of the reactor; and

C. Pursuant to the Act and Title 10, CFR Chapter 1, Part 30, "Licensing of Byproduct Material", to possess but not to separate such byproduct materials as may be produced by operation of the reactor.

4. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70, Title 10, Chapter 1, CFR, and to be subject to all applicable provisions of the Act, and to the rules and regulations and orders of the Commission, now or hereafter in effect, and to the additional conditions specified below:

A. *Operating restrictions.* University of Virginia shall not operate the reactor at power levels in excess of 1000 kilowatts (thermal) without prior written authorization from the Commission.

B. *Records.* In addition to those otherwise required under this license and applicable regulations, University of Virginia shall keep the following records:

1. Reactor operating records, including power levels.

2. Records of in-pile irradiations.

3. Records showing radioactivity released or discharged into the air or water beyond the effective control of University of Virginia as measured at the point of such release or discharge.

4. Records of emergency reactor scrams, including reasons for emergency shutdowns.

C. *Reports.* University of Virginia shall immediately report to the Commission in writing any indication or occurrence of a possible unsafe condition relating to the operation of the reactor.

5. Pursuant to § 50.60 of the regulations in Title 10, CFR Chapter 1, Part 50, the Commission has allocated to University of Virginia for use in connection with operation

of the reactor, 6,900 kilograms of uranium 235 contained in uranium at the isotopic ratios specified in the application, and 16 grams of encapsulated plutonium. This allocation supersedes that previously granted in Special Nuclear Material License No. SNM-184 issued April 3, 1958. Estimated schedules of special nuclear material transfers to University of Virginia and returns to the Commission are contained in Appendix "A" below. Transfers from the Commission to University of Virginia in accordance with column (2) of Appendix "A" will be conditioned upon return to the Commission of special nuclear material substantially in accordance with column (3) of Appendix "A".

6. This license is effective as of the date of issuance and shall expire at midnight September 13, 1977.

Dated of issuance:

For the Atomic Energy Commission.
